ARLINGTON, TEXAS 76011-4511

June 17, 2013

Reliance Testing and Inspection  
ATTN: Ed Shindurling  
Radiation Safety Officer  
2031 Heyrend Way  
Idaho Falls, Idaho 83402

SUBJECT: CHANGE OF OWNERSHIP INFORMATION

Per your amendment request dated April 5, 2013, the Nuclear Regulatory Commission (NRC) was notified of your intent about a proposed change of ownership for activities authorized under NRC license 11-27658-01. The enclosure contains guidance on the type of information that needs to be submitted to the NRC as a license amendment request to allow for the review and approval of the proposed change of ownership. You can contact me at 817-200-1132 or by email at [Jackie.Cook@nrc.gov](mailto:Jackie.Cook@nrc.gov) if you have any questions about this letter. Please note that our mailing address has changed to 1600 East Lamar Boulevard, Arlington, Texas 76011-4511.

**In addition, please note that the NRC does not list an "Assistant Radiation Safety Officer" on a license. The Radiation Safety Officer (RSO) is responsible for the overall management of the radiation safety program; identifying radiation safety problems, initiating, recommending or providing corrective actions; verifying implementation of corrective actions; ensuring compliance with the Commission's rules and regulations and conditions of the license. An RSO should actively participate in the day-to-day management of the radiation safety program. Although the performance of certain radiation safety tasks may be delegated by the RSO to other individuals (such as an alternate Radiation Safety Officer), the responsibility for the overall effectiveness of the radiation safety program and for compliance with NRC rules and regulations and conditions of the license reside with the RSO. Therefore, we will not act on your request to add Mr. Steve Husted as an assistant RSO.**

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter and its enclosure will be available electronically for public inspection in the NRC Public Document Room or from the NRC's document system (ADAMS). ADAMS is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html>.

Thank you for your cooperation.

Sincerely,

*/RA/*

Jacqueline D. Cook, Senior Health Physicist  
Nuclear Materials Safety Branch B

Docket: 030-35327

License: 11-27658-01

Enclosure: As stated

**Change of Control and/or Change of Ownership  
(Includes Change of Name)**

10 CFR 30.34(b) states that "no license issued or granted pursuant to the regulations...nor any right under a license shall be transferred, assigned or in any manner disposed of, either voluntarily or involuntarily, directly or indirectly, through transfer of control of any license to any person, unless the Commission shall...find that the transfer is in accordance with the provisions of the Act and shall give its consent in writing. Although not specifically addressed by 10 CFR 30.34, licensees undergoing a name change may also be affected by this regulation.

Control over licensed activities can be construed as the authority to decide when and how a license (licensed material and/or activities) will be used. A change of ownership may be an example of a change of control. The central issue is whether the authority over the license has changed. In all cases, determining whether a change of control has taken place or whether a change is in name only is the Commission's responsibility.

Licensees must notify the Commission when they are undergoing a possible change of control and/or a change of name. While this notification is not required within a certain time frame, NRC needs adequate time to review the submittal to ensure that the transfer is in accordance with the regulations.

In order to process your request for a change of control/ownership and/or a name change, the information on the following pages is required. Our fax number is (817) 200-1188. If you have any questions regarding our discussion or this fax, please contact me. When responding to this fax, please include the license, docket, and mail control numbers, located at the top of this page as well as the following pages. Thank you.

Definitions:     Transferee: A transferee is an entity that proposes to purchase or otherwise gain control of an NRC-licensed operation.

                  Transferor: A transferor is an NRC licensee selling or otherwise giving up control of a licensed operation.

Information Required for Change of Control and/or Change of Ownership  
 (Includes Change of Name)  
 Source: NUREG-1556, Volume 15

**Please provide the following information concerning changes of control (transferor and/or transferee, as appropriate). If any items are not applicable, state so.**

1. Provide a complete description of the transaction (i.e., transfer of stocks or assets, or merger). Indicate whether the name has changed and include the new name. Include the name and telephone number of a licensee contact who NRC may contact if more information is needed.

A. Description of the transaction:

B.  No name change

New name of licensed organization: \_\_\_\_\_

C.  No change in contact

New contact: \_\_\_\_\_

New telephone number: \_\_\_\_\_

2. Describe any changes in personnel or duties that relate to the licensed program. Include training and experience for new personnel.

A.  No changes in personnel having control over licensed activities.

Changes in personnel having control over licensed activities (e.g. officers of a corporation):

B.  No changes in personnel named in the license.

Changes in personnel named in the license (e.g. RSO, AUs) - include training, experience and responsibilities:

3. Describe, in detail, any changes in the organization, location, facilities, equipment or procedures that relate to the licensed program.

Organization:  Equipment:

Location:  Procedures:

Facility:  Not applicable

4. Describe the status of the surveillance program (i.e., surveys, wipe tests, quality control) at the present time and the expected status at the time that control is to be transferred.

A. Description of the status of all surveillance program:

B. Surveillance Items & Records: calibrations, leak tests, surveys, inventories, and accountability requirements will be current at the time of transfer

Yes       No (explain)

5. Confirm that all records concerning the safe and effective decommissioning of the facility will be transferred to the transferee or to NRC, as appropriate. These records include documentation of surveys of ambient radiation levels and fixed and/or removable contamination, including methods and sensitivity.

Records transferred to:

New licensee    NRC for license termination       Not applicable

6. Confirm that the transferee will abide by all constraints, conditions, requirements and commitments of the transferor or that the transferee will submit a complete description of the proposed licensed program.

\_\_\_\_\_ will abide by all constraints, conditions,  
(transferee company)  
requirements and commitments of \_\_\_\_\_  
(transferor company)
