Dear Gary Holahan,

I would like to appreciate that you shared your views on the recent NRC regulatory policy with KHNP delegation on June 3. I regret that I missed the chance to meet you at that time due to an unfortunate event.

The technical review and the feedback by the NRC staff have been a great help to us in improving the APR1400 Design Certification Document. KHNP has been exerting all efforts to ensure that the application is complete and of high quality, which will help the licensing process to be successful.

I truly appreciate your interest and support on the APR1400 DC project, and I will look forward to your favorable consideration and continued support.

Sincerely yours,

Byung-Oke Cho
