Amy,

AREVA appreciates the discussion we just held with you and NRC staff via telecon to review the status of the DRAFT RAI response for Question 07.01-35 submitted on October 11th. We understand that the NRC staff needs additional time to complete their review and provide full and complete feedback. AREVA has received partial NRC feedback related to the CCW crosstie SAS interlock design and is working to address this issue. Once we receive complete feedback on the Oct. 11th Draft response – which we understand will be transmitted no later than Nov. 21st, AREVA will provide a revised schedule for submittal of the final response to this question after evaluation of the additional NRC staff comments.

The schedule for a technically correct and complete final response to the remaining question in RAI 505 remains unchanged as shown below.
