Subject: Re: Pilgrim clarification question...

Yes - I got a message passed along to me last night. Jay indicated that dredging was last completed in 2011 and that they dredge approximately once every 12 years so it was likely that dredging would occur once during the extended operating period.

Julie,

My contact at Entergy, Joe Egan, let me know that his boss, Jay Scheffer, spoke with Mark Murray-Brown at your office yesterday afternoon to answer your questions about dredging at Pilgrim. Can you confirm that you got the information you need from their discussion? Thanks,

Briana

Subject: Pilgrim clarification question...

Hi Briana -

I am working on addressing edits to our consultation letter -- the issue of dredging has come up. Could you please clarify whether maintenance dredging of the intake canal or any other location is required as part of the license and whether NRC considers dredging as part of the action under consideration?

Thanks,

Julie
