### SUMMARY

During our review of your application dated April 23, 2013, it appeared that your application had not been prepared in accordance with the guidance in NUREG 1556, Vol. 1, Rev. 1, "Consolidated Guidance about Materials Licenses: Program-Specific Guidance about Portable Gauge Licenses, dated November 2001." This omission has resulted in an incomplete application that contains numerous restrictive elements which we believe you would find difficulty complying with, if we were to include them in your license.

**RESPONSE:** Please resubmit your application for a new license in entirety, focusing on the responses and commitments in Appendix B to the aforementioned NUREG if you would like to remove the restrictive elements in your application.

Please note that certain sections of this NUREG have been modified since its last revision, as noted below:

- A. You will not be able to change and name your RSO internally; NRC must do that for you via the amendment process.

**RESPONSE:** Please include a written, signed (by both senior management and the proposed RSO) and a currently dated statement that stipulates your proposed RSO accepts the RSO position and understands the duties and responsibilities associated with the position. Each proposed RSO must be qualified in accordance with the guidance in NUREG 1556, Vol 1, Rev. 1, Section 8.7, Item 7: "Individual(s) Responsible for Radiation Safety Program and Their Training and Experience."

- B. In the NRC guidance document, NUREG 1556, Vol. 1, Rev. 1, Section 8.3, Item 3 indicates that most applicants need to provide two types of information: (1) description of storage, use, and dispatch locations (2) specification of whether they intend to use the portable gauge at temporary job sites.

**RESPONSE:** Please respond in writing indicating if the gauges will be used at temporary job sites

**For guidance on preparing all licensing correspondence, please use NUREG 1556 Vol. 1, Rev. 1, "Consolidated Guidance About Materials Licenses - Program-Specific Guidance About Portable Gauge Licenses." This document can be found at:**
