Docket No. 72-11  
Rancho Seco Independent Spent Fuel Storage Installation  
License No. SNM-2510

### REPORT OF RANCHO SECO PHYSICAL PROTECTION PLAN CHANGE

In accordance with 10 CFR 72.44(e), we are providing the NRC a copy of Amendment 6 to the Rancho Seco Independent Spent Fuel Storage Installation (ISFSI) Physical Protection Plan (PPP). The PPP was amended to reflect changes due to installation of a new vehicle barrier. The new vehicle barrier meets ASTM standards related to the design basis threat for vehicular attacks on the ISFSI. The vehicle barrier was replaced because the temporary vehicle barrier required maintenance of heavy lift equipment in order to allow access to the ISFSI while the new barrier can be operated without special equipment. Based on an evaluation under the provisions in 10 CFR 72.44(e), we have determined that the changes to the PPP do not decrease the effectiveness of the plan. Therefore, we can make these changes without prior NRC approval.

**The information attached to this transmittal letter is Safeguards Information. Accordingly, the attachment shall be afforded the protection under 10 CFR 73.21 and may not be placed in the Public Document Room. This transmittal letter, when separated from the attachment is not Safeguards Information and may be placed in the Public Document Room.**

If you or members of your staff have questions requiring additional information or clarification, please contact me at (916) 732-4817.

Sincerely,

A handwritten signature in black ink, appearing to read "E. T. Ronningen".

Einar T. Ronningen  
Superintendent, Rancho Seco Assets
