NRC Proposes \$7,000 Civil Penalty to American Engineering Testing, Inc.

The Nuclear Regulatory Commission has proposed a \$7,000 civil penalty against American Engineering Testing, Inc., for a security-related violation found during a routine NRC inspection. The company is located in St. Paul, Minn., but the violation was identified at a facility located in Gary, Ind.

The NRC conducted the inspection in April. Once the violation of NRC requirements was identified the company took immediate corrective actions to restore compliance.

Details about security-related violations are not made public.

A copy of the Enforcement Action will be posted on the Agencywide Documents Access and Management System (ADAMS) at the NRC website.
