Re: NRC License # 13-18543-01

Gentlemen,

This is to notify you that Dr. Walker has been approved by the Radiation Safety Committee, RSO, and the administration of Community Westview Hospital to function as an authorized user under NRC License # 13-18543-01, expiration date 30 April 2015. As evidence of Dr. Walker's previous training and experience, enclosed please find a copy of the Radioactive Materials License from Aurora Medical Center of Oshkosh, Inc. in Oshkosh, Wisconsin allowing Dr. Charles J. Walker, D.O. to function as an authorized user under that license.

I currently serve as the Radiation Safety Officer (RSO); however, I have been assigned new responsibilities as interim president and CEO of Community Westview Hospital. As such, we are requesting that Dr. Charles Walker, Director of Radiology, be named the Radiation Safety Officer. Inasmuch as I will not be leaving the hospital system, I will be available for consultation with Dr. Walker regarding any radiation safety matters. Furthermore, we continue to utilize a Certified Health Physicist (Mack L. Richard, MS, CHP from Richard Health Physics Consulting) on a consulting basis who will provide assistance to Dr. Walker for any radiation safety issues that might arise.

As is evident in the letterhead, Westview has undergone a new name change reflecting our affiliation with Community Hospitals of Indiana. At this time the Administration has remained the same as before the name change. Please advise us if there is anything we need to do to regarding our NRC license and the new hospital name.

Sincerely,

David C. Williams, D.O., CEO
Radiation Safety Officer
Community Westview Hospital
