Subject: Cameco Request for Public Meeting on Marsland License Amendment Application

Mr. Lancaster - Cameco would like to schedule a public meeting to discuss the status of the Marsland License Amendment Application. A date in early August would allow time to prepare. In addition, Cameco requests the an extension to the 30-day response period so that the results of the public meeting may be incorporated into the RAI responses and revisions to the application language. Cameco expects to have the RAI responses prepared in the middle of September, 2013.

As you are aware, on June 26, 2013 Cameco submitted a package of revisions to the Marsland Technical Report in response to NRC observations during the acceptance review process. A number of the RAIs were completely or partially addressed in that package. Cameco hopes to identify and discuss any remaining gaps so that the next package of application revisions is responsive.

Agenda items might include:

RAI by RAI discussion of status in light of the June 26th submission;
Additional NRC Observations

Thanks.
