CONTROL NOS. 580457, 580458, 580460, 580461, 580463, 580466, 580467,  
AND 580464

Dear Mr. Shea:

This is in reference to your letter dated July 11, 2013, providing the NRC with additional information on your personnel dosimetry program, as requested in our letter dated June 5, 2013. The new information provides a sufficient basis to allow changes in the dosimetry frequency exchange for each of your licensed programs with the exception of the industrial radiography program which will remain unchanged. Your fixed gauge licenses will not need an amendment because your commitment allows for some flexibility in your dosimetry service. Accordingly, we will amend the remaining licenses (01-06113-04, 01-25284-01, 41-08165-08, and 41-08165-18) for the dosimetry changes identified, and issue the amendments under separate correspondence. Your cooperation is appreciated.

Sincerely,
