

August 23, 2013

Charles W. Maguire, Director  
Radioactive Materials Division  
Texas Commission on Environmental Quality  
P.O. Box 13087  
Austin, TX 78711-3087

Dear Mr. Maguire:

We have reviewed Texas House Bill (H.B.) 1079, on application for production area authorizations and Senate Bill (S.B.) 347, on the Texas Low-Level Radioactive Waste Disposal Compact received by our office on June 27, 2013. These final amendments to the legislation were reviewed by comparison to 10 CFR Part 40, "Domestic Licensing of Source Material"; 10 CFR Part 61, "Licensing Requirements for Land Disposal of Radioactive Waste"; and the Suggested State Legislation (SSL) on "Radiation Control," published 1983 by the Council of State Governments. We discussed our review of the legislation with Hans Weger on August 21, 2013.

As a result of our review, we have no comments. Please note that we have limited our review to program elements required for compatibility and/or health and safety and the identification of program elements that create conflicts, duplications or gaps in the orderly pattern of regulations on a nationwide basis (See the 1997 Policy Statement on Adequacy and Compatibility of Agreement State Programs).

We have determined that the changes to Texas' legislation meet the compatibility and health and safety categories established in the Office of Federal and State Materials and Environmental Management Programs (FSME) Procedure SA-200, "Compatibility Categories and Health and Safety Identification for NRC Regulations and Other Program Elements."

The State Regulation Status (SRS) Data Sheet summarizes our knowledge of the status of other Texas regulations and legally binding requirements, as indicated. Please let us know if you note any inaccuracies or have any comments on the information contained in the SRS Data Sheet. This letter, including the SRS Data Sheet, is posted on the FSME website: <http://nrc-stp.ornl.gov/rulemaking.html>.

C. Maguire
