The NRC requests that [Applicant(s)'s Full Name] inform the NRC environmental project manager of any new and potentially significant information regarding the [Project Name] Unit(s) # and # project of which it is aware. In addition, the NRC requests that the [Applicant abbreviation] copy the NRC environmental project manager on correspondence between [applicant name] and Federal, State, and other agencies regarding the [Project Name] Unit(s) # and # project. The basis for this request is 10 CFR 51.41, which provides that the Commission may require an applicant to submit information to the Commission as may be useful in aiding the Commission in complying with Section 102(2) of the National Environmental Policy Act.
