Subject: Docket Number 70-3098
Shaw AREVA MOX Services
Mixed Oxide Fuel Fabrication Facility
Closure of Part 21 60-Day Interim Report Notification:
Weld Wire Samples for Commercial Grade Dedication

Reference: 1. Letter from K. Trice to U.S. NRC Document Control Desk, DCS-NRC-000353, Part 21 60-Day Interim Report Notification: Weld Wire Samples for Commercial Grade Dedication, dated May 28, 2013

Shaw AREVA MOX Services, LLC (MOX Services) submitted an Interim Report (Reference 1) regarding an evaluation of reportability which could not be completed within 60 days from the discovery of the deviation. The deviation being evaluated pertained to the number of test samples for weld wire used in the welding process of four glovebox support structures as required by the supplier's commercial grade dedication procedure.

MOX Services has investigated this condition and concluded, based on the results of the hardness, chemical, mechanical, soundness testing, and non-destructive weld examination (NDE) completed on the four glovebox support structures, that the weld wire used by Byers Precision Fabricators will perform its intended function as required by design. The weld wire nonconformance report was dispositioned as "Use As Is". Therefore, a substantial safety hazard does not exist and this condition is deemed not reportable. The purpose of this letter is to close the Interim Report (Reference 1).

If you have any questions, please feel free to contact me at (803) 819-2156 or Dealis Gwyn, Licensing and Nuclear Safety Manager at (803) 819-2780.

Sincerely,

A handwritten signature in cursive script that reads "Kelly D. Trice".

Kelly D. Trice
