Subject: Closure of Comanche Peak Section 3.11 Confirmatory Items

Don,

RAI 97-3705, Questions 3.11-12 to 3.11-17 had been identified as confirmatory items. Based on information in the draft SER, these confirmatory items are now resolved and eRAI has been updated. Note that Confirmatory Items can be designated either in the question status column or the Issue type. ERAI is being updated in the near future so we will see what options remain.

Thanks,

Dennis Galvin
