Dear Senator Casey:

On behalf of the U.S. Nuclear Regulatory Commission (NRC), I am responding to your letter of June 12, 2013, forwarding correspondence from your constituent George McCloskey. Mr. McCloskey is seeking opportunities for his firm, Geo-Graphics, to become involved in radiological dispersion modeling and emergency response at NRC-regulated commercial nuclear power plants. He mentions the Limerick Generating Station, northwest of Philadelphia, in particular.

Mr. McCloskey is welcome to request a small business counseling session with the NRC Small Business Program (in-person or via teleconference) to discuss business opportunities with the agency. He may contact the Small Business Program directly at [smallbusiness@nrc.gov](mailto:smallbusiness@nrc.gov) or 301-415-7381. He also may want to review business opportunities at the following Websites:
