

August 5, 2013

Mr. Douglas J. Walters
Vice President
Regulatory Affairs
Nuclear Energy Institute
1201 F Street, NW, Suite 1100
Washington, DC 20004

SUBJECT: RESPONSE TO JULY 3, 2013, LETTER REGARDING INDUSTRY COMMENTS
ON DRAFT FUEL CYCLE CYBER SECURITY ORDER, REQUIREMENTS, AND
GUIDANCE

Dear Mr. Walters:

The U.S. Nuclear Regulatory Commission (NRC) appreciates the industry comments provided in your July 3, 2013, letter regarding potential new cyber security requirements for fuel cycle facilities. Over the past several months, the discussions between the NRC staff and the industry have helped the industry understand the threat and vulnerabilities and provided the staff with valuable insights into licensees' perspective on the proposed cyber security requirements. The NRC staff will utilize the information in your letter to better inform the proposed cyber security initiative.

In accordance with Title 10 of the *Code of Federal Regulation* 2.390(d) of the NRC "Rules of Practice," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records System component of NRC's document system (Agencywide Document Access Management System [ADAMS]). ADAMS is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html> (the Public Electronic Reading Room).

I would like to thank you for taking the time to provide your thoughts and your comments on this initiative and the draft order. If you have any further questions or comments regarding this matter, please contact Mr. Brian Smith at 301-287-9088, or via e-mail at Brian.Smith@nrc.gov.

Sincerely,

/RA/ J. Andersen for

Marissa G. Bailey, Director
Division of Fuel Cycle Safety
and Safeguards
Office of Nuclear Material Safety
and Safeguards
