Hi John,

I will have a better idea late September, early fall timeframe. I hope that helps and I will let you know if I find out sooner.

Thanks,
Annette

Thanks Annette

If you can keep me informed on the ability to fill the order I would appreciate it. You mention that you might know in the near future. Can you give me a rough estimate for a time frame?

Thanks
John

Mr. Giarrusso,

At this time, it is uncertain if NRC will be able to support any requests for increase in tablet quantities. We are currently in the process of obtaining a contract for KI and will let you know if we can fulfill the request for additional tablets in the near future. The additional tablets you are requesting would be approximately 53,200 (65 mg). This would put the total of tablets for MA at 1,153,200.

Please let me know if you have any questions.

Annette

I work closely with Gus on the Nuclear Program for Massachusetts. My responsibility is the emergency preparedness for the 3 nuclear plants that are in or border our Commonwealth. Concerning KI, will the NRC be replenishing the KI we have in place for emergency workers to support the emergency response to the plants?

We have 1900 packets (14 pills per packet) of 130mg each. Reading the emails below it looks like that NRC will not be supplying 130mg and only 65mg. If that is the case we would need 3800 packets of the 65mg.

My contact information is below and please give me a call with any questions

Thanks
john

Good Morning Gus,

Thank you for your e-mail and delivery address. We will be in contact with you a couple of weeks prior to the delivery date. Please let me know if you have any additional questions/concerns.

Thank you,
Annette Stang

Annette,

This email is to notify you that Massachusetts would like to participate in the KI replenishment program for the EPZ communities.

The number of KI tabs that you specify in your email below dated March 8, 2013 is adequate for our needs. We understand that the NRC will only replenish the amount that was shipped to us the last go around. We also understand that we will only be receiving 65 mg instead of 130 mg (2 for adult and 1 for child) in the total of 1,100,000 (65 mg) tablets. The address for KI delivery would be the following:

Louis Dell'Olio, Director
Commonwealth of Massachusetts
Office of Pharmacy Services
365 East Street
Tewksbury, Massachusetts 01876
(978) 858-2100

The contact for the Massachusetts Department of Public Health, Radiation Control Program is Beverly Anderson (617) 242-3035 x 2001. We will contact you with any special delivery requests.

Best regards,

Gus

Hello,

The NRC is preparing to replenish expiring stockpiles of KI tablets. According to our records your State has 550,000 (130mg) tablets with lot numbers PO3-4, expiring in February 2014. We are no longer supplying (130mg) tablets and will replace stockpiles with (65mg) tablets (2 per adult and 1 per child). We will replace your (130mg) tablets with 1,100,000 (65 mg) tablets. The NRC will replace the expiring stockpiles during fiscal year 2014. If your State wishes to participate in the NRC KI tablet replenishment, please respond with the delivery address, point of contact (including phone number) and any special delivery requests you have no later than May 31, 2013. Please note these tablets will not be shipped until 2014 to ensure timely replacement of your States expiring KI stockpiles. We will notify you prior to shipment of the tablets to enable you to make any preparations necessary for receipt.

Thank you so much for your prompt attention to this matter. I look forward to your response. Please let me know if you have any questions.

Thank you,
Annette Stang
