Subject: Revised draft telecon summary for phone call on 7-19-13
Attachments: Telecon Summary 07-19-13 RVI Program and Inspection Plan.docx

Hi Roger,

As per your comment, I've added a paragraph to explain the one wording change. Please review and let me know if you have any further comments.

Thanks,
Kim

LICENSEE: Entergy Nuclear Operations, Inc.

FACILITY: Indian Point Nuclear Generating Unit Nos. 2 and 3

SUBJECT: SUMMARY OF CONFERENCE CALL HELD ON JULY 19, 2013, BETWEEN THE U.S. NUCLEAR REGULATORY COMMISSION AND ENTERGY NUCLEAR OPERATIONS, INC., CONCERNING DRAFT REQUEST FOR ADDITIONAL INFORMATION RELATED TO AMENDMENT 9 TO LICENSE RENEWAL APPLICATION – REACTOR VESSEL INTERNALS PROGRAM AND THE REACTOR VESSEL INTERNALS INSPECTION PLAN – INDIAN POINT NUCLEAR GENERATING UNIT NOS. 2 AND 3

The U.S. Nuclear Regulatory Commission (NRC or the staff) and representatives of Entergy Nuclear Operations, Inc. held a telephone conference call on July 19, 2013, to discuss and clarify the staff's draft request for additional information (D-RAI) related to Amendment 9 to license renewal application – reactor vessel internals program and the reactor vessel internals inspection plan. The telephone conference call was useful in clarifying the intent of the staff's D-RAI.

During the telephone call, the staff informed the applicant that it will delete a portion of the request in D-RAI 11-B, number 5, because the staff's position, as described in the D-RAI, is that either the plant-specific analysis needs to be provided in a timely fashion or the applicant should inspect the components during the initial inspection. The RAI will be reworded as follows:

In the absence of an NRC-approved plant-specific analysis for the lower support column bodies, please explain how these components will maintain their intended function during the PEO, ~~or why they should not be inspected during the initial inspections.~~

No other changes to the requests for additional information were needed.

The enclosure provides a listing of the participants.

The applicant had an opportunity to comment on this summary.

Kimberly J. Green, Sr. Mechanical Engineer
Aging Management of Plant Systems Branch
Division of License Renewal
Office of Nuclear Reactor Regulation

Docket Nos. 50-247 and 50-286
