

UNITED STATES
NUCLEAR REGULATORY COMMISSION
WASHINGTON, D.C. 20555-0001

August 1, 2013

All Operating Reactor Licensees and
Holders of Construction Permits
(See Enclosed List)

**SUBJECT: ONLINE REFERENCE PORTAL FOR NUCLEAR REGULATORY COMMISSION
REVIEW OF FUKUSHIMA NEAR-TERM TASK FORCE RELATED DOCUMENTS**

Experience gained to-date with the U.S. Nuclear Regulatory Commission (NRC) review of Fukushima Near-Term Task Force (NTTF) submittals has shown that the use of an online reference portal improves the efficiency of the NRC staff review. This experience has previously been communicated to licensee representatives in various forums, specifically in the context of the Mitigation Strategies review (NRC Order EA-12-049). Based on this experience, the NRC staff would like to expand the use of the online reference portals to other areas of review for NTTF-related documents, beyond the Mitigation Strategies review. The online reference portal allows the NRC staff and contractors limited read-only access to the basis documents and other reference materials cited in the various submittals, and thus allows the NRC staff to audit the licensees' onsite documents that support the information provided in the submittal. Documents that are necessary to support the NRC staff evaluation of the submittal will be identified by the NRC staff. The licensee will then be requested to submit those documents on the NRC docket via the normal request for additional information process. Use of the online reference portal is acceptable, as long as the following conditions are met:

- The online reference portal will be password-protected and passwords will be assigned to those directly involved in the review on a need-to-know basis;
- The online reference portal will be sufficiently secure to prevent staff from printing, saving, or downloading any documents; and
- Conditions of use of the online reference portal will be displayed on the log-in screen and will require concurrence by each user.

In order to facilitate the review of the ongoing NTTF recommendation, members of your staff may be contacted by the Office of Nuclear Reactor Regulation (NRR) facility project managers to request that the portal be made available to support various NTTF reviews. Such requests may include populating the portal with the references included in the submittal, such as drawings, procedures, and calculations. This will help to increase the effectiveness and timeliness of the NRC staff's review.

The conditions described above associated with the online reference portal must be maintained throughout the duration of the review process. Should you decline to participate in this expansion of the online portal process, please provide written notification to the NRC of this determination. This will allow the NRC staff to make plans to obtain the necessary information by an alternate method.

Communication regarding specific document requests will be transmitted to you from your facility NRR project manager or a project manager from the Japan Lessons-Learned Project Directorate. In addition, the project manager contacting you will also identify the NRC and NRC-contractor personnel who will require access to the portal for completing the NTTF reviews.

If you have any questions about this matter, please contact your NRR project manager.

Sincerely,

A handwritten signature in black ink, appearing to read "David L. Skeen". The signature is fluid and cursive, with the first name "David" being the most prominent.

David L. Skeen, Director
Japan Lessons-Learned Project Directorate
Office of Nuclear Reactor Regulation

Communication regarding specific document requests will be transmitted to you from your facility NRR project manager or a project manager from the Japan Lessons-Learned Project Directorate. In addition, the project manager contacting you will also identify the NRC and NRC-contractor personnel who will require access to the portal for completing the NTTF reviews.

If you have any questions about this matter, please contact your NRR project manager.

Sincerely,

/ra/
