

**UNITED STATES  
NUCLEAR REGULATORY COMMISSION  
ADVISORY COMMITTEE ON REACTOR SAFEGUARDS  
WASHINGTON, DC 20555 – 0001**

July 25, 2013

Mr. Michael Massaro  
Site Vice President  
Peach Bottom Atomic Power Station  
1848 Lay Road  
Delta, PA 17314

Dear Mr. Massaro:

Please accept this letter of thanks for hosting the Advisory Committee on Reactor Safeguards during our visit to the Peach Bottom Atomic Power Station (PBAPS) on July 23, 2013.

Your team provided us with detailed and informative briefings regarding operations and challenges at the site, and a detailed tour of PBAPS. Your staff worked diligently to ensure that our questions were answered accurately and completely. The opportunity to interact directly with you and your staff was of great value to all of us and the professionalism and preparation for these visits by your staff was outstanding, particularly the efforts of Ms. Kimberly Hobbs. Please convey our thanks to all the presenters at our meeting and our tour guides.

Sincerely,

*/RA/*

J. Sam Armijo  
Chairman, Advisory Committee on  
Reactor Safeguards
