Subject: WITS 201200247 - CA Note on Operator Licensing Examiners Workshop

Dan,

The attached CA note content is forwarded IAW OEDO-0310. The note is to satisfy the requirement in SRM M121127, Task 1, to provide the Commission details of an upcoming national examination writers workshop and completes action for WITS 201200247 (OEDO due date 7/31/2013).

Although SRM M121127 refers to the “national examination writer’s workshop *sponsored by the NRC*,” the workshop is actually being sponsored by NEI, with NRC participation. This clarification is not a change from the initial plans mentioned at the Commission briefing held on November 27, 2012, as NEI has always been the workshop sponsor with responsibility for coordinating the logistical details.

DIRS and NRR management have reviewed the note.

Please let me know if there is anything else you need.

Thanks,

Jack
