Rebecca,

Thank you for returning my call earlier. I'm following up by email to summarize what we discussed. Per your questions,

- 1) Your review is limited to the Marsland Expansion Area.
- 2) The public site contained maps in the technical report that you will find helpful.
- 3) You will submit your review to Kevin through the mail, but you will send an electronic copy to Jean and myself to expedite our receipt.

If you have any more questions, please don't hesitate to ask.

Have a great weekend,

Mirabelle Shoemaker

Hi Rebecca,

As I indicated in my voicemail, I've recently joined this project. Jean returns next week and can further assist in answering your questions if I'm unable to, but let me try to assist you. Are you looking for clarification regarding what the applicant, Cameco, has provided to you? I am not aware of the letter you are referencing in point 1) or what arrangement you have with the NRC staff in reviewing the license amendment application. Any background information you can provide would be most helpful in order for me to answer your questions.

Any documentation that the NRC staff is reviewing is available on the public site here,
<http://www.nrc.gov/materials/uranium-recovery/license-apps/marsland/marsland-app-docs.html>.

Subject: Marsland Expansion Area Review

Hi Jean,

I am working with John Callen to review the Crow Butte Resource, INC, license amendment application for the Marsland Expansion Area In-Situ Uranium Recovery Satellite Facility in Dawes County, Nebraska (Docket No 40-8943). I have a few questions for you regarding this project.

1. The map sent along with our letter shows two additional expansion areas besides the proposed Marsland Expansion Area. I just want to verify that we are reviewing only the Marsland Expansion Area, correct?
2. Also, is there a shapefile associated with this expansion area, or a map that shows the public land survey sections associated with this expansion area? It would help us more accurately review this area if we have a shapefile or a map showing sections.
3. Lastly, could we submit our review to you via email or do we absolutely need to mail our review to Kevin Hsueh?

Thanks much,

Becky Groshens, CFM
