

July 31, 2013

Dr. Stefan Anton
Acting Licensing Manager
Holtec International
555 Lincoln Drive West
Marlton, NJ 08053

SUBJECT: HOLTEC INTERNATIONAL REQUEST FOR WITHHOLDING INFORMATION
FROM PUBLIC DISCLOSURE (TAC NO. L24664)

Dear Dr. Stefan:

By letter dated April 2, 2013, Holtec submitted an affidavit dated April 2, 2013, executed by you, requesting that the information contained in the following documents be withheld from public disclosure pursuant to Title 10 of the *Code of Federal Regulations* (10 CFR), Part 2, Section 2.390:

Marked up UMAX FSAR changes, HI-2115090, PRI A

Shielding Analysis Report for the HI-STORM UMAX, HI-2125194 Revision 2

Thermal-Hydraulic Evaluation for the HI-STORM UMAX, HI-2114807 Revision 2

DVD containing electronic copies of the input and output files of the thermal calculation package

MPC -37 Fuel Basket Assembly, Holtec Licensing Drawing 6506, Revision 6

MPC -89 Fuel Basket Assembly, Holtec Licensing Drawing 6507, Revision 7

HI STORM UMAX Vertical Ventilated Module, Holtec Licensing Drawing 8446, Revision 4

HI-2043317 Revision 18, Appendix O, Evaluation of Single Storage Cell Sandia Test Data for Ascertaining the Adequacy of Proposed One Million Flow Resistance

The affidavit stated that the submitted information should be considered exempt from mandatory public disclosure for the following reasons:

- (a) Information that discloses a process, method, or apparatus, including supporting data and analyses, where prevention of its use by Holtec's competitors without license from Holtec International constitutes a competitive economic advantage over other companies.

- (b) Information which, if used by a competitor, would reduce his expenditure of resources or improve his competitive position in the design, manufacture, shipment, installation, assurance of quality, or licensing a similar product.
- (e) Information which discloses patentable subject matter for which it may be desirable to obtain patent protection.

We have reviewed your application and the material in accordance with the requirements of 10 CFR 2.390 and, on the basis of your statements, have determined that the submitted information sought to be withheld contains proprietary commercial information and should be withheld from public disclosure.

Therefore, the submitted information marked as proprietary will be withheld from public disclosure pursuant to 10 CFR 2.390(b)(5) and Section 103(b) of the Atomic Energy Act of 1954, as amended.

Withholding from public inspection shall not affect the right, if any, of persons properly and directly concerned to inspect the documents. If the need arises, we may send copies of this information to our consultants working in this area. We will, of course, ensure that the consultants have signed the appropriate agreements for handling proprietary information.

If the basis for withholding this information from public inspection should change in the future such that the information could then be made available for public inspection, you should promptly notify the U.S. Nuclear Regulatory Commission (NRC). You also should understand that the NRC may have cause to review this determination in the future, for example, if the scope of a Freedom of Information Act request includes your information. In all review situations, if the NRC makes a determination adverse to the above, you will be notified in advance of any public disclosure.

If you have any questions regarding this matter, I may be reached at 301-287-9250.

Sincerely,

/RA/ M. Sampson for

John M. Goshen, P. E., Project Manager
Licensing Branch
Division of Spent Fuel Storage and Transportation
Office of Nuclear Material Safety
and Safeguards

Docket No.: 72-1040

TAC No.: L24664
