Re: Notice of Transfer of Nuclear Source

Dear Sir/Madam,

As required by 10 CFR Part 31.5(c)(8), described below is the source transferred from Graphic Packaging International, Inc. to a specific licensee authorized to receive such sources.

Transfer Date	Manuf.	Device Model	Device Serial Number	Source Serial Number	Isotope	Activity (mCi)	Transferred To
June 24, 2013	ABB Inc.	O-7	19E748231	K-2253-P	Kr85	250	ABB Inc. – Westerville, OH

A copy of the acknowledgement of receipt of the source by the transferee is attached. A copy of this transfer notice has been placed in our facility's nuclear source files to complete the records. The facility nuclear source inventory has been updated to reflect this transfer.

Sincerely,

Donald J. Krug  
 Environmental Engineer  
 Graphic Packaging International, Inc.  
 1500 North Pitcher Street  
 Kalamazoo, Mi 49007  
 Phone: 269-383-5440

Enclosure: ABB Inc. Acknowledgement of receipt of source

July 22, 2013

ATTN: Don Krug  
Radiological Safety Officer  
Graphic Packaging  
1500 N. Pitcher Street  
Kalamazoo, Michigan 49007

Dear Sir:

Please be advised that, as of June 24, 2013, ABB Inc. is able to confirm transfer of possession of the radioactive material identified below to ABB Inc., Westerville, Ohio.

Manufacturer	Device Model	Source Model	S/N	Isotope	Activity
ABB Inc.	O-7	S-11	K-2253-P	Kr-85	9.3 GBq (250 mCi) on Date of Manufacture

This device was distributed to your company under a General License issued by the U.S. Nuclear Regulatory Commission. To comply with the requirement for notification of transfer, we recommend forward this report to:

Director  
Office of Federal and State Materials and Environmental Management  
Programs  
ATTN: Document Control Desk/GLTS  
U.S. Nuclear Regulatory Commission  
Washington, DC 20555-0001

This letter should be retained in your permanent files related to your use and possession of radioactive materials.

Best regards,

Jonathan C. Fortkamp  
Corporate Radiation Safety Officer

ABB Inc.
