Materials Licensing
Region III
2443 Warrenville Road, Suite 210
Lisle, IL 60532-4352**

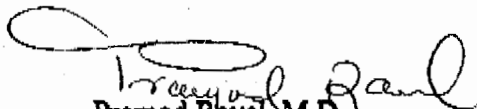

Dear Sir:

This letter is in response to the letter of violation for license No. 21-32401-01.

1. The nuclear medicine department door was not locked. This was corrected at the time of the inspection. Since then the radioactive sources have been removed and transferred to Radiological Physics Service (21-26253-01) for storage.
2. There has been no active use of radioactive for over 24 months. We are requesting that the license be placed in Standby until a final decision on the use of the materials is made. A letter of request is attached.

If there are any questions please call our RSO Ray A. Carlson, M.S. at (734) 395-7361 cell phone.

Sincerely,

**Pramod Raval, M.D.

Dear Sir:

This letter is to request that materials license no. 21-32401-01 be placed into Standby Mode as required because of the lack of activity. There has been no activity done for the past two years. We currently are planning on restarting in the near future. We contact the NRC at that time.

If there are any questions please call our RSO Ray A. Carlson, M.S. at (734) 395-7361 cell phone.

Sincerely,

Pramod Raval, M.D.
