Control No. 581168

License No. 19-30738-01

Amrish Patel
President
AB Consultants, Inc.
9450 Annapolis Road
Lanham, MD 20706

SUBJECT: AB CONSULTANTS, INC., LICENSE AMENDMENT, CONTROL NO. 581168

Dear Mr. Patel:

This refers to your license amendment request dated July 2, 2013. Enclosed with this letter is the amended license.

Please be reminded that the NRC policy requires that all correspondence related to a license be signed by a member of the licensee's senior management and not the Radiation Safety Officer. Your adherence to this requirement in all your future correspondence with us will assist us processing your correspondence in a timely manner.

Please review the enclosed document carefully and be sure that you understand and fully implement all the conditions incorporated into the amended license. If there are any errors or questions, please notify the U.S. Nuclear Regulatory Commission, Region I Office, Licensing Assistance Team, (610) 337-5239, so that we can provide appropriate corrections and answers.

An environmental assessment for this action is not required, since this action is categorically excluded under 10 CFR 51.22(c)(14).

Current NRC regulations and guidance are included on the NRC's website at www.nrc.gov; select **Nuclear Materials; Med, Ind, & Academic Uses**; then **Licensee Toolkits**, see our **toolkit index page**. You may also obtain these documents by contacting the Government Printing Office (GPO) toll-free at 1-866-512-1800. The GPO is open from 8:00 a.m. to 5:30 p.m. EST, Monday through Friday (except Federal holidays).

The NRC's Safety Culture Policy Statement became effective in June 2011. While a policy statement and not a regulation, it sets forth the agency's *expectations* for individuals and organizations to establish and maintain a positive safety culture. You can access the policy statement and supporting material that may benefit your organization on NRC's safety culture Web site at <http://www.nrc.gov/about-nrc/regulatory/enforcement/safety-culture.html>. We strongly encourage you to review this material and adapt it to your particular needs in order to develop and maintain a positive safety culture as you engage in NRC-regulated activities.

A. Patel
