Amy,

An advanced response to RAI 527 Questions 14.02-163 and 14.03.07-38 was transmitted to you on January 25, 2013. These RAI responses are related to Chapter 11 and 12 RAI responses. Our plan is to reschedule a joint meeting between AREVA and NRC staff to address these comments on outstanding Chapter 11 and 12 RAI responses and provide a planned path forward to resolve these comments and receive complete feedback.

AREVA will provide a revised schedule for submittal of the final response to these questions after the public meeting has been conducted and AREVA has evaluated NRC staff comments.

An updated schedule for the final response to RAI 527 Questions 14.02-163 and 14.03.07-38 is provided below:

RAI 527 — 14.02-163	TBD

Amy,

In letter NRC 13:012 dated April 12, 2013, AREVA provided a schedule for the Advanced Response to RAI 527, Question 14.03.02-56 of July 1, 2013. Because this response is related to the final responses to the critical section RAIs, AREVA does not believe an advanced response is necessary. We plan to send the response to this question in Chapter 14 as final concurrent with the final responses to the related RAI 155 final responses.

The schedule for the final response to this question remains unchanged.

Attached please find the subject request for additional information (RAI). A draft of the RAI was provided to you on November 25, 2011, and on December 12, 2011, you informed us that the RAI is clear and no further clarification is needed. As a result, no change is made to the draft RAI. The schedule we have established for review of your application assumes technically correct and complete responses within 30 days of receipt of RAIs, excluding the time period of **December 24, 2011 thru January 2, 2012, to account for the holiday season** as discussed with AREVA NP Inc. For any RAIs that cannot be answered **within 40 days**, it is expected that a date for receipt of this information will be provided to the staff within the 40-day period so that the staff can assess how this information will impact the published schedule.
