Commitment Change Summary Report

STP Nuclear Operating Company (STPNOC) submits the attached Commitment Change Summary Report for the period June 21, 2011 through June 21, 2013.

The commitments were evaluated in accordance with the requirements of the STPNOC Regulatory Commitment Change Process, which is consistent with the guidance in the Nuclear Energy Institute's NEI 99-04, "Guidelines for Managing NRC Commitment Changes." Additional documentation is available at STPNOC for your review.

There are no new commitments in this letter.

If there are any questions, please contact Marilyn Kistler at 361-972-8385.

12-24977-9	HL-AE-3475	6/4/1990	11/12/2012	V. <u>Corrective Actions Taken to Prevent Recurrence</u> 1B. The NPMM Department is labeling expendable material "See Expendable Material Manual Prior to Use or Disposal" by lot upon receipt of material for new stock and upon issuance from warehouse to the user organization. 1E. CO&A will identify all expendable materials and assign special part numbers to these expendables by 12/15/90.	NPMM department is labeling materials covered under the site chemical control program with labels containing specific usage code(s). STP will not assign special part numbers to materials covered under the site chemical control program. Chemicals controlled under the new site chemical control program will be assigned specific use restrictions which will match the intent of the expendable materials program.	The Expendable Material Label program currently in use is being enhanced to provide clearer guidance for the end user.
