Re: Docket ID NRC-2013-0107 – Request for written comment on requirements related to foreign ownership, control, or domination of commercial nuclear power plants

This is in response to the NRC's request for comments published in Federal Register on June 3, 2013 (78FR33121).

Nuclear Innovation North America (NINA) is an applicant for Combined Licenses to construct and operate two new Advanced Boiling Water Reactors at the South Texas Project site. NINA fully supports the need for the Commission to review and revise the current regulatory positions and practices on foreign ownership, control or domination in view of the contemporary interests of the United States. Therefore, NINA has worked with NEI in the development of industry comments on the subject request and endorses the NEI comments.

Mark McBurnett  
Chief Executive Officer and Chief Nuclear Officer
