Summaries of 10 CFR 50.54(q) Evaluations

1. EPM-410, Revision 10, Communication and Facility Performance Tests

EPM-410 was revised to incorporate changes that were required to be evaluated by the 10 CFR 50.54(q) process. Those changes were:

Section	Change Description
Cover Page	Changed Procedure Type as follows per AP-004 Section 5.1.2 step 10: From: "PLANT EMERGENCY PROCEDURE" To: "EMERGENCY PROGRAM MAINTENANCE" This is editorial for editing the cover page.
6.5 & 6.6, Step 4	New step added to each section stating "Briefly summarize work performed in the "Completion Comments on Work Performed" field of the Work Order Task." This is editorial for adding an administrative action and is consistent with ADM-NGGC-0104 (Work Implementation and Completion) for documentation in WO's.
Attachments 5 & 6	Added "Upon completion, this attachment becomes a VITAL RECORD." This is editorial for adding administrative information/action.

The 10 CFR 50.54(q) screen concluded that the above changes are editorial and do not require a 10 CFR 50.54(q) evaluation.
