re: AUC LLC's Proposed Reno Creek Uranium Recovery Project - License Request (Docket No. 040-09092) (SHPO File # 0893KLLK075)

Dear Ms. Caverly:

Thank you for consulting with the Wyoming State Historic Preservation Office (SHPO) regarding the above referenced undertaking.

Management of cultural resources on U.S. Nuclear Regulatory Commission (NRC) projects is conducted in accordance with Section 106 of the National Historic Preservation Act and Advisory Council regulations 36 CFR Part 800. These regulations call for survey, evaluation and protection of significant historic and archeological sites prior to any disturbance. Provided the NRC follows the procedures established in the regulations, we have no objections to the project. Specific comments on the project's effect on cultural resource sites will be provided to the NRC when we review the cultural resource documentation called for in 36 CFR Part 800.

Please refer to SHPO project control number #0893KLLK075 on any future correspondence dealing with this undertaking. If you have any questions, please contact me at 307-777-5497.

Sincerely,

Richard L. Currit
