Dear Mr. Wojszynski,

Thank you for returning my phone call this morning regarding the status of your application XR173 to export major reactor components to Chinese nuclear power plants. As we discussed, the Chinese government is not moving forward at this time with the construction of the three plant projects that were referenced in your application. For this reason, you have withdrawn this license application from our review and anticipate submitting a new application for different Chinese nuclear power plant projects in the near future. I am sending you this email to close out the case files here. Since we had already begun the review process for XR173, we cannot refund your license application fee.

Please let me know if you have any questions, we look forward to receiving your new application. As I noted on the phone, the license fee before August 30 for a Commission level case is \$17800, after that date is \$17700.

Thanks, have a great day!  
-Jenny
