U.S. NRC Region III

2443 Warrenville Road

Suite 210

Lisle, Illinois 60532-4352

Dear Materials Licensing Branch Chief:

The Missouri Department of Conservation's (MDC) Resource Safety Office (RSO) position became vacant due to a personnel matter.

We are changing the designation of our RSO and propose Mr. David Lewis.

Before obtaining licensed materials, the proposed RSO will have successfully completed one of the training courses described in Criteria in the section entitled 'Individual(s) Responsible for Radiation Safety Program and Their Training and Experience – Radiation Safety Officer' in NUREG – 1556, Vol. 1, Rev. 1 'Consolidated Guidance About Materials Licenses: Program-Specific Guidance about Portable Gauge Licenses,' dated November 2001.

Mr. Lewis has completed Radiation Safety Training and recertification training that complies with US Department Regulation 49 CFR 172 Subpart H. The training is conducted by the State Emergency Management Agency (SEMA) and the Missouri Department of Transportation (MoDOT) and is licensed by the NRC. Mr. Lewis has been using nuclear density gauges on the job for more than seven years.

Mr. Lewis is familiar with the MDC's license and the regulations pertaining to the license.

If you have any questions, please do not hesitate to contact me.

Sincerely,

Alicia J. Weaver, PMP  
Administrative Manager

David Lewis  
Contract Supervisor and Radiation Safety Officer
