SUBJECT: APPROVAL OF AREVA NP, INC.' S SUBMITTAL OF THE EMERGENCY PLAN,
REVISION 8.0, FOR THE RICHLAND FACILITY (TECHNICAL ASSIGNMENT
CONTROL NUMBER L33271)

Dear Mr. Link:

The U.S. Nuclear Regulatory Commission (NRC) has completed the review of AREVA NP Richland Facility Emergency Plan (EP) Revision 8.0 dated February 27, 2013, and supplemental written response dated July 18, 2013. The NRC staff determined that the EP was properly submitted under the provisions of the Title 10 of the *Code of Federal Regulations* (10 CFR) Part 70.32(i) and the changes do not decrease the effectiveness of the EP. Accordingly, the changes to your EP are acceptable, and Safety License Condition S-2 of Special Nuclear Materials License - 1227 will be updated in a future amendment to reflect the current revision.

This review was assigned Technical Assignment Control Number (TAC) L33271. Upon approval of the revised EP and issuance of this letter, TAC L33271 is closed.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records component of NRC's Agencywide Document Access and Management System (ADAMS). ADAMS is accessible through the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html>.

Sincerely,

/RA/
