At 2 pm on 3/25/13, call 888-469-5869, enter code (b)(6) and press the # button. During the meeting we ask that you don't allow your background noise on to the phone line, which is shared by everyone who is calling in. If your phone has a mute button you can use that. Otherwise, use the built in mute feature of our phone system. Press \*6 to mute your phone, and \*6 again to unmute if you decide to ask a question. If your phone system plays music when you put a call on hold, please do not put this call on hold. Attached are the slides for the meeting.

John,

Please let me have phone number and pass code for today's 2 p-m flood hazard re-evaluation meeting.

Sincerely,
