**Subject:** RE: Pre-GI-009 Screening Analysis Redacted Version

I am still waiting on NRR to confirm what they want redacted. Richard has given me a version based on what we know now and we need to make a few more changes (such as redacting table of contents). I will check with George on his progress.

Ben

**Subject:** FW: Pre-GI-009 Screening Analysis Redacted Version

Not sure what DHS plans to get back with us on given we have/are redacting the report. Please continue to revise the report and get the package up to Brian asap.

thx

Craig,

To answer your 2 questions:

The NRC has 2 qualified PCII program managers.

Duke did not request their documents be protected under the PCII program.

We are working to finalize the screening report on upstream dams and plan to make it available it this week.

Appreciate your time and effort.

Rich

Rich,

Thanks for the updated report. Based on conversations with General Counsel I have two questions:

1. Is the NRC an approved participant in the DHS Protected Critical Infrastructure Information (PCII) Program? Basically, this requires someone from the NRC being trained and certified by the PCII Program to handle PCII information.
2. If so, did Duke Energy submit critical infrastructure information, in this case the dams information, to the NRC and request that the information be protected under the PCII program?

I will be checking with the PCII Program to see if their records identify the NRC as a certified PCII participant. As soon as I get any info on this end I will let you know.

Craig,

The revised redacted report is attached.

Thx again.

This version has a much smaller file size.
