Subject: update on GI 204

Brians,

Update on GI 204:

(b)(6)
Per request of U.S. Army Corps of Engineers

(b)(6)
Per request of U.S. Army Corps of Engineers,

ARMY corps of engineers (ACE)

Per request of U.S. Army Corps of Engineers

These are the senior managers (SES) at ACE George Wilson interfaces with regarding dam safety issues. (b)(6) is the ACE representative on the interagency committee on dam safety. At this week's committee meeting, (b)(6) was the ACE representative. (b)(6) George told me he explained to the Committee what GI 204 is about and our plans going forward with issuing the GI, press release etc. using the information we provided. George indicated they understood and had no issues with the GI.

Per request of U.S. Army Corps of Engineers

I told George I want to call (b)(6) soon after Brian1 signs GI 204 to inform them we have issued the GI and that a press release would be issued in a few days and to ask them again if they had any questions or concerns.

Per request of U.S. Army Corps of Engineers

I also just confirmed a call with Jim Conklin/DHS for tomorrow afternoon to hear from him/his dam sector staff what their comments are on the GI 204 screening report.
