Subject: Clarification of examination history of Weld SW-12

V, here is the clarification that the Ali Rezai requested. Let me know if you have any questions.

Clarification of Dominions response regarding the previous examination history of Weld SW-12 on Line 32"-SHP-58. This weld had been examined three previous times and root geometry was documented for two of those examinations. To comply with the ASME Section XI requirements to compare the examination results with the previous examination, Dominion provides examination history to the examination personnel. If geometry has been documented previously, and the examiner determines that there are no changes in the indication the indication is not required to be recorded again.
