Dear Mr. DeLaBarre

Enclosed are two applications, dated July 30, 2013, received by the U.S. Nuclear Regulatory Commission (NRC) from Perma-Fix Northwest, Inc. requesting Amendment No. 04 to licenses IW022 and XW012 for the import and export of radioactive waste from/to Canada.

The purpose of the amendments is to add three facilities to the list of "Foreign Suppliers"/"Ultimate Foreign Consignee(s)."

Since no other changes to the terms and conditions of the existing licenses are requested, the NRC intends to issue these minor amendments after the 30-day time period allotted for public review expires and it is determined that applicable import and export license criteria are met.

Sincerely,

A handwritten signature in cursive script that reads "Charlotte E. Abrams".
