2443 WARRENVILLE ROAD, SUITE 210
LISLE, IL 60532-4352

August 14, 2013

Mr. Joseph Plona
Senior Vice President and
Chief Nuclear Officer
DTE Electric Company
Fermi 2 - 210 NOC
6400 North Dixie Highway
Newport, MI 48166

SUBJECT: FERMIL POWER PLANT, UNIT 2, NOTIFICATION OF NRC INSPECTION

Dear Mr. Plona:

In a meeting on August 13, 2013, Mr. R. M. Morris, of Operator Licensing Branch, and Mr. Z. Rad, of Regulatory Affairs, made arrangements for the U. S. Nuclear Regulatory Commission (NRC) to conduct an inspection using Temporary Instruction (TI) 2515-186, "Inspection of Procedures and Processes for Responding to Potential Aircraft Threats," at Fermi Power Plant, Unit 2. This inspection is planned for the week of October 21, 2013.

The NRC inspector will require a shift manager-qualified individual, qualified unit supervisors, and a qualified security shift supervisor for a table-top scenario to allow inspection of TI 2515-186 attributes. Additionally, in order to minimize the impact to your onsite resources and to ensure a productive inspection for both sides, please have available the procedures that would be followed when responding to an aircraft threat and any related lesson plans pertinent to the inspection. Additionally, the inspector needs to review your aircraft threat procedure and a list of corrective action reports regarding security and licensed operator issues, the week before the inspection.

This letter does not contain new or amended information collection requirements subject to the *Paperwork Reduction Act of 1995* (44 U.S.C. 3501 et seq.). Existing information collection requirements were approved by the Office of Management and Budget, Control Number 3150-0011. The NRC may not conduct or sponsor, and a person is not required to respond to, a request for information or an information collection requirement unless the requesting document displays a currently valid Office of Management and Budget Control Number.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records System (PARS) component of NRC's Agencywide Documents

M. Plona
