Control No. 581372

Dear Dr. Mansur:

This correspondence is sent in reference to your letter dated March 21, 2013, in which you requested termination of your NRC license. In order for us to complete your request for termination, we need the following additional information:

1. The final area radiation survey you performed of your facility.
2. The final contamination survey for radioactive material performed after you ceased to use radioactive material.
3. A list of the sealed sources you possessed under this license and the disposition of the sources. If the sources were transferred to another licensee, please specify the name and NRC license number of the entity to whom the sealed sources were transferred.

I have attached NRC Form 314 that may be used to document the requested information.

We will continue our review of your amendment request upon receipt of this information. Please reply to my attention at the Region 1 Office and refer to Mail Control No. 581372. You may also respond via fax to (610) 337-5269 or via email to [lester.tripp@nrc.gov](mailto:lester.tripp@nrc.gov). If you have any technical questions regarding this deficiency letter, please contact me at (610) 337-5358.

In order to continue prompt review of your application, we request that you submit your response to this letter within 15 days from the date of this letter.

Thank you for cooperation.
