Mr. Christopher Costanzo, Site Vice President
Nine Mile Point Nuclear Station, LLC
P.O. Box 63
Lycoming, NY 13093-0063

**SUBJECT: REQUALIFICATION PROGRAM INSPECTION – NINE MILE POINT
NUCLEAR STATION, UNIT 2**

Dear Mr. Costanzo:

In a telephone conversation on August 14, 2013, Mr. Michael Alexander, Requalification Program Administrator, and Mr. Todd Fish, Sr. Operations Engineer, made arrangements for the U. S. Nuclear Regulatory Commission (NRC) to inspect the licensed operator requalification program at the Nine Mile Point, Unit 2, facility. The inspection is planned for the week of November 18, 2013, which coincides with your regularly scheduled requalification examination cycle. The staff at your facility should prepare and conduct the requalification examinations in accordance with your NRC-approved requalification program.

In accordance with 10 CFR 55.59(c), the NRC may request facility licensees to submit their comprehensive requalification written examinations or annual operating tests as necessary to support the NRC's inspection program needs. In order for the NRC to adequately prepare for this inspection, please furnish: 1) an index or summary of condition reports written in the past two years in which licensed operator errors were determined to be the root or contributing cause; 2) an index or summary of condition reports written in the past two years on simulator performance problems; 3) an index or summary of simulator performance test results in the past two years; and 4) the examination schedule, sample plan, and operating test scheduled for the week of the inspection to the NRC by November 11, 2013. Mr. Alexander has been advised of this request and provided with the name and address of the NRC lead inspector assigned to this inspection.

This letter contains information collections that are subject to the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 et seq.). These information collections were approved by the Office of Management and Budget, approval number 3150-0018.

The public reporting burden for this collection of information is estimated to average 4 hours per response, including the time for reviewing instructions, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding this burden estimate or any other aspect of these information collections, including suggestions for reducing the burden, to the Records and FOIA/Privacy Services Branch (T-5 F52), U.S. Nuclear Regulatory Commission, Washington, D.C. 20555-0001, or by Internet electronic mail to INFOCOLLECTS@NRC.GOV; and to the Desk Officer, Office of Information and Regulatory Affairs, NEOB-10202, (3150-0018), Office of Management and Budget, Washington, D.C. 20503.

The NRC may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter will be available NPF 69 electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records (PARS) component of the NRC's document system, Agencywide Documents Access and Management System (ADAMS). ADAMS is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html> (The Public Electronic Reading Room).

Thank you for your cooperation in this matter. If you have any questions regarding this inspection, please contact Mr. Fish at (610) 337-5369.

Sincerely,

/RA/

Donald E. Jackson, Chief
Operations Branch
Division of Reactor Safety
