Dear Ms. Arribas-Colon:

I have carefully reviewed your letter of June 19, 2013, and I am resubmitting my request for registration of the SABIA Model X1-XP analyzer, as an amendment to SS&D registration NR-1195-104-S.

I have revised the submittal, and have included a separate section in response to the questions and comments posed in your letter of June 19, 2013.

Please contact me if there are any questions.

Sincerely,

James F. Miller
