Dear Mr. DeLaBarre:

Enclosed is an application (XMAT429), dated June 28, 2013, received by the U.S. Nuclear Regulatory Commission (NRC), from Matheson Tri Gas, Inc, for the export of deuterium gas to the Republic of Korea for use in semiconductor devices.

Inasmuch as Executive Branch views are not required for exports of deuterium gas to the Republic of Korea for a non-nuclear end-use, the NRC intends to issue the requested license after the required 30-day waiting period.

Sincerely,

A handwritten signature in blue ink that reads "Charlotte E. Abrams".
