Yes, you are authorized to waive the 14 day notification for this immediate safety matter, but need to submit a notification referencing this discussion.
Also – has your company name changed? CBI vs SHAW?

Subject: Notification of temporary jobsite license 20-31340-01
Importance: High

Kathy,

We have been notified by our retail client (in MI,)that they have a potentially damaged tritium exit sign and have requested that we respond to package and remediate if necessary. Our NRC license requires a 14 day notice before working. Is it possible to shorten the 14 day period for this type of response?

Thank you

Claire
