AUG 14 2013

Robert J. Tokarz, M.S.
Radiation Safety Officer
Shared Imaging, LLC
801 Phoenix Lake Avenue
Streamwood, IL 60107

Dear Mr. Tokarz:

Enclosed is Amendment No. 2 amending your NRC Material License No.12-32798-01 in accordance with your request. Please note that the changes made to your license are printed in **bold font**.

Please review the enclosed document carefully and be sure that you understand all conditions. If there are any errors or questions, please notify the U.S. Nuclear Regulatory Commission, Region III office at (630) 829-9887 so that we can provide appropriate corrections and answers.

Please note, we have not authorized Dr. Thomas Yu as a user at this time, because he was not listed as an authorized user on the State of New Jersey License 459062-RAD12004 that you submitted with your request. If you wish to pursue this matter, please resubmit your request to add Dr. Thomas Yu as an authorized user and follow the guidance in NUREG-1556, Volume 9, Revision 2 which can be found on the NRC website at <http://www.nrc.gov/reading-rm/doc-collections/nuregs/staff/sr1556/v9/r2/>, and the Licensing Guidance for using the NRC FORM 313A Series of Forms, which can also be found on the NRC website at <http://www.nrc.gov/materials/miau/med-use-toolkit/licensing-guidance-form313a.pdf>. Also, please note, your license only authorizes temporary jobsites, so there are no addresses of use to remove from the license as you requested. However, please make sure you perform and maintain records of close-out surveys for facilities released for unrestricted use in accordance with the NRC regulations. Please note that we have removed the license condition regarding decommissioning financial assurance because this condition no longer applies to your licensed activities.

You will be periodically inspected by NRC. Failure to conduct your program in accordance with NRC regulations, license conditions, and representations made in your license application and supplemental correspondence with NRC will result in enforcement action against you. This could include issuance of a notice of violation, or imposition of a civil penalty, or an order suspending, modifying or revoking your license as specified in the General Statement of Policy and Procedure for NRC Enforcement Actions. Since serious consequences to employees and the public can result from failure to comply with NRC requirements, prompt and vigorous enforcement action will be taken when dealing with licensees who do not achieve the necessary meticulous attention to detail and the high standard of compliance which NRC expects of its licensees.

R.J. Tokarz

The NRC's Safety Culture Policy Statement became effective in June 2011. While a policy statement and not a regulation, it sets forth the agency's *expectations* for individuals and organizations to establish and maintain a positive safety culture. You can access the policy statement and supporting material that may benefit your organization on NRC's safety culture Web site at <http://www.nrc.gov/about-nrc/regulatory/enforcement/safety-culture.html>. We strongly encourage you to review this material and adapt it to your particular needs in order to develop and maintain a positive safety culture as you engage in NRC-regulated activities.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter and its enclosure will be available electronically for public inspection in the NRC Public Document Room or from the NRC's Agencywide Documents Access and Management System (ADAMS), accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html>.

Sincerely,

William P. Reichhold
Materials Licensing Branch
