Name of Licensee: Lockheed Martin Corporation

Name of Participant(s): Margaret Doudy, Assistant General Council  
Dennis Lawyer, RI, DNMS

Telephone No. 407-356-2415

Subject: RAI, Understanding of Application

(NOTE: This will be used as the  
Documents Title in ADAMS)

I questioned the activity requested on the license. The SS&D has 6 microcuries per source for the model being used and thus the request was raised to 6 microcuries per source, 1.2 millicuries per site, and 4.8 millicuries total. Ms. Doudy told me that the 4 locations being added were under federal jurisdiction. I asked if page 17 of 19 phone number were personal or business. Ms. Doudy said they were all business phone numbers even the cell numbers. I asked about the training program as it is different than previously submitted. Ms. Doudy said that the training program submitted is for the entire license and not just for the 4 locations and should be used from this point on. The security section 3.1 did not state what they do for security of the "next higher assembly" so I asked Ms. Doudy to send me a signed statement for the security requirements of the "next higher assembly".

**Action Required: Ms. Doudy will send me a signed statement for the security requirements.**
