NRC Public Meeting Aug. 28 to Receive Comments on Decommissioning Activities Report for TMI-2

The Nuclear Regulatory Commission staff will hold a public meeting Aug. 28 in Hershey, Pa., to discuss the Post-Shutdown Decommissioning Activities Report for Three Mile Island, Unit 2. The public will also be able to make comments.

TMI-2 is a pressurized water reactor located in Londonderry Township, Pa. It has been permanently shut down since the [accident](#) at the facility on March 28, 1979. GPU Nuclear defueled the reactor vessel and decontaminated the facility and the plant is in a safe, stable condition known as post-defueling monitored storage. The formal transition of TMI-2 from post-accident cleanup to monitored storage required NRC approval, which was granted in 1993.

The meeting will be held from 7-9 p.m. in the Cocoa Terrace at Hershey Lodge, 325 University Drive, Hershey, Pa. The company submitted the [Post Shutdown Decommissioning Activities Report](#) on June 28, 2013.

Written comments on the decommissioning report can be submitted using Docket ID NRC-2013-0183 on the [Regulations.gov](#) website. Comments can also be submitted, using the Docket ID, via mail to: Cindy Bladey, Chief, Rules, Announcements, and Directives Branch, Office of Administration, Mail Stop: 3WFN-06-A44M, U.S. Nuclear Regulatory Commission, Washington, DC 20555.

The deadline for submitting comments on the report is Sept. 27.
