I acknowledge that I have acquired specialized knowledge about the NRC licensing examinations scheduled for the week(s) of 4/18/13 as of the date of my signature. I agree that I will not knowingly divulge any information about these examinations to any persons who have not been authorized by the NRC chief examiner. I understand that I am not to instruct, evaluate, or provide performance feedback to those applicants scheduled to be administered these licensing examinations from this date until completion of examination administration, except as specifically noted below and authorized by the NRC (e.g., acting as a simulator booth operator or communicator is acceptable if the individual does not select the training content or provide direct or indirect feedback). Furthermore, I am aware of the physical security measures and requirements (as documented in the facility licensee's procedures) and understand that violation of the conditions of this agreement may result in cancellation of the examinations and/or an enforcement action against me or the facility licensee. I will immediately report to facility management or the NRC chief examiner any indications or suggestions that examination security may have been compromised.

Re: April 16, 2013, NRC Initial License Written Examination

On April 16, 2013, the Duane Arnold Energy Center (DAEC) administered the LOIT Written Examination to 9 applicants (4 SRO Instants, 2 SRO Upgrades, and 3 RO Upgrades). A formal, written examination review was conducted on April 17, 2013, and revealed no challenges to any of the 100 questions administered. As such, the DAEC will not be submitting any challenges to the LOIT written examination.

In addition, the DAEC is requesting that the written examination be withheld from public disclosure for a period of 24 months from the date administered as discussed with the NRC Chief Examiner, B. Palagi.

If you have any questions, please call William Simmons, Training Manager, at (319) 851-7181.

This letter contains no new commitments.

<p>Review Conclusions: Review the question for each of the areas identified in A through H and check a "Y" for "Yes" or "N" for "No" to determine if there is a discrepancy with the question. For any 'NO' response(s) to A-H, initiate a corrective action if needed to define the issues and document the corrective action number on the front page. Attach this form electronically to the corrective action (if written) and file the paper copy with the exam key. One corrective action may be used to document multiple issues.</p>	<p>A. Does the test question tie directly to the learning objective(s)? B. Is the test question at the same cognitive level as the tested objective(s)? C. Does the lesson plan/ instructor guide provide information to support the objective(s)? D. Is the training material content correct regarding the exam answer (that is, does the material support the answer or does it lead to an incorrect answer)? E. Is there ONLY one correct answer provided on the exam? F. Does the exam answer key indicate the correct answer? G. Does the test question meet the guidance in TR-AA-230-1002 SAT Design Phase? H. Is this an acceptable test question per response of A-G (i.e. all 'YES' responses)?</p>
