RE: Rapiscan Systems, Inc. request for Amendment to NRC Export License XB1329

Mr. Baker:

Rapiscan Systems, Inc. respectfully submits the enclosed completed USNRC Form 7, Application for Export of Radioactive Materials in support of our request for authorization to move manufacturing and distribution operations to our facilities in California.

We have been granted approval to manufacture the Rapiscan HE50 by the State of California under our California radioactive materials license number 7873-19, amendment #2. While the OSI Electronics location remains as an authorized location on our USNRC exempt distribution license, we have been granted approval to add the Rapiscan Location at the Rapiscan facility 2805 Columbia Street, Torrance California location and at 12525 Chadron Avenue, Hawthorne California.

We are in the process of setting up the manufacturing operations in California and will be distributing all future Rapiscan HE50's from the 2805 Columbia Street, Torrance California location. We request that NRC Export license XB1329 be amended to reflect this change. We request that the OSI-Electronics location at 25 Commerce Way, North Andover, MA be removed from the license and that the Manufacturing and Distribution location be listed as Rapiscan Systems 2805 Columbia Street California. We also request that the 12525 Chadron location be added as a manufacturing location.

In order to expedite this request, we have included the amendment fee of \$1400 that you quoted us via e-mail on August 8, 2013.

We believe the enclosed application to be accurate and complete. Should you require further information regarding this request, please contact Mr. Chris Millsaps, Radiation Safety Officer, at 424-634-2065 or by e-mail at Cmillsaps@rapiscansystems.com.

Sincerely,

Varti Vartanian
